Subject: Appeal of Coastal Development Permit
CDP14-0017

Date: 11-12-2014

Dear City Council:

Pay stations in a parking area adjacent our natural and beautiful coastline is contrary to public access. Further more, it is a tax! There has to be another tax supported entity that would support the required construction and maintenance costs required for public access. We pay enough taxes already.

Please do not approve this Plan!
