ORDINANCE NO. 12-04

WHEREAS, the City of Dana Point has a duty to protect the natural environment, the economy, and the health of its citizens; and

WHEREAS, there are currently approximately 240 individual retail establishments in the City; and

WHEREAS, plastic bags, a petroleum based product that retail establishments frequently distribute at the point of sale, enter various water bodies from both direct and indirect sources (such as storm drains), and negatively impact the overall quality of ocean waters and adjacent beach areas; and

WHEREAS, the litter problem resulting from single use plastic bags is becoming increasingly difficult to manage and has costly negative implications for tourism, wildlife, aesthetics, and most recently, the marine environment; and

WHEREAS, the Pacific Ocean contains a huge accumulation of debris known as the “Great Pacific Garbage Patch” which consists mostly of plastic debris, and some scientists estimate the density of plastic in this garbage patch as one million pieces of plastic per square mile; and

WHEREAS, the deterioration in the quality of the City’s ocean waters and beaches threatens the public health, safety and welfare and negatively affects tourism and the local economy which depends on tourist trade; and

WHEREAS, while plastic does not biodegrade, it can “photo-degrade,” breaking down into smaller pieces which can make their way into the food chain via animals such as jellyfish; and

WHEREAS, while the exact numbers are unknown, there are many reported instances of marine animals being injured or dying from ingesting or choking on plastic debris in the ocean, and accordingly, it is reasonable to conclude from such information that the presence of plastic debris in the ocean is a hazard to marine life; and

WHEREAS, even when they have been disposed of properly, a primary and significant problem with single use plastic bags is that they do not biodegrade and are so light that they are easily carried by the wind, such that in a coastal city like the City of
Dana Point, single use plastic bags often find their way into the marine environment where, unlike paper bags, they do not break down and essentially remain indefinitely, creating aesthetic blight and potential hazard to marine life; and

WHEREAS, reusable bags and paper bags are alternatives to single use plastic bags; and

WHEREAS, although paper bags require more energy to manufacture and recycle and generate effluent during these processes, paper bags are heavier than single use plastic bags, and as a result, are less likely to get caught in the wind and find their way into the marine environment; and

WHEREAS, the City strongly encourages affected retail establishments to provide incentives for the use of reusable bags through education, credits or rebates for the use of reusable bags, and/or by charging customers for each paper bag distributed at the point of sale; and

WHEREAS, the City of Dana Point desires to reduce the amount of beach litter and marine pollution and to protect wildlife by reducing the amount of single use plastic bags that enter the City's storm drains, watershed, beaches and ocean waters; and

WHEREAS, the City Council has proposed a ban on the point of sale distribution of single use plastic bags in the City to reduce the prevalence of single use plastic bags in the City's storm drains, watershed, beaches and ocean waters; and

WHEREAS, the City Council has also directed City Staff to work with the Dana Point Destiny Ad Hoc Committee to develop a voluntary incentive program for small businesses to promote and reward green tourism practices and, in addition, to consider and discuss other programs and incentives that could be implemented in order to make Dana Point a trash free city. After considering these issues, the Committee shall make a recommendation to the City Council for their consideration.

WHEREAS, the City Council of the City of Dana Point conducted multiple duly noticed hearings regarding the proposed ban at their regular scheduled meetings of February 7, 2012, February 21, 2012 and March 6, 2012 where public comment was invited and received; and

WHEREAS, because the proposed ban is not an activity that will result in an adverse physical change in the environment, the proposed ban does not qualify as a "project" under section 21065 of the Public Resources Code, and accordingly, is not subject to the California Environmental Quality Act (Pub. Res. Code §§ 21000–21177) ("CEQA"); and

WHEREAS, even if the proposed ban qualified as a "project" under section 21065 of the Public Resources Code, the project is exempt from the CEQA because (1)
it is an activity undertaken "to assure the maintenance, restoration, enhancement and protection of the environment" (14 C.C.R. § 15308), and/or (2) "it can be seen with certainty that there is no possibility that the activity in question may have a significant [adverse] effect on the environment" (14 C.C.R. § 15061(b)(3)); and

WHEREAS, even though CEQA does not require it, the City is willing to and has prepared an Initial Environmental Study on the proposed ban, and based upon this study, the City determined that the proposed ban is not an activity that will have a significant adverse effect on the environment; and

WHEREAS, because the proposed ban is not an activity that will have a significant adverse effect on the environment, the City prepared a Negative Declaration pursuant to section 21080(c) of the Public Resources Code and hereby adopts this Negative Declaration; and

WHEREAS, the proposed ban will have no negative impact on Fish and Game resources pursuant to Section 21089(b) of the Public Resources Code.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF DANA POINT HEREBY ORDAINS AS FOLLOWS:

6.47.050 Enforcement.

(a) Whenever the City Manager or his or her designee finds that any provision of this Chapter has been violated, the City Manager shall give notice of such violation by means of a written warning. In any such warning, the City Manager shall:

(c) Each and every day that a violation occurs shall constitute a separate violation of this Chapter.

(d) The City Attorney may seek legal, injunctive, or other equitable relief to enforce this Chapter.
SECTION 3. Severability.

If any section, subsection, subdivision, paragraph, sentence, clause, phrase or portion of this Ordinance is, for any reason, held to be invalid or unconstitutional by any court of competent jurisdiction, such decision shall not affect the validity or effectiveness of the remaining portions of this Ordinance. The City Council hereby declares that it would have adopted this Ordinance and each section, subsection, subdivision, paragraph, sentence, clause, phrase and portion of this Ordinance irrespective of the fact that one or more sections, subsections, subdivisions, paragraphs, sentences, clauses, phrases or portions thereof may be declared invalid or unconstitutional.
