ACCELERATED REVIEW APPLICATION

INTRODUCTION

Accelerated Building Department plan reviews will be conducted only when city resources are available to perform the accelerated review. A separate application and fee is required for re-submittals. Approval of an accelerated building review does not include Planning, Engineering, or Public Works. A separate application is required and is subject to that department's standard procedure.

FEES

An accelerated fee of \$197.50 per hour is payable at the time of plan check submittal, and is in addition to the standard plan review fee paid at time of submittal. An accelerated review requires the prior approval of the Building Official. A two (2) hour minimum will apply for smaller projects and a four (4) hour minimum will apply for larger projects.
