New Online Registration System

On February 6, 2017, we'll be rolling out a new online registration system. Once it has been released, our current customers and new customers will need to create an account to use it, but don't worry, with a couple clicks and a few taps of the keyboard, you'll be set up and ready to register for classes online, 24/7 from your computer, tablet or smart phone. To create an account on or after February 6, 2017, visit www.danapoint.org/recreation and click on the link for "Online Registration."

The new system has many great benefits and is extremely easy to use. Search for your favorite activities by keyword, age, day, time, location and more. You can even register for multiple activities in one transaction making the registration and payment process faster and more convenient.

To assist you with your account setup, the following is a link to a short training video on creating your account.
