For simple changes of ownership, names, or to validate an existing business this Application is all that is required.

For any new business, change in use or occupancy, legal non-conforming business, or other change to a business, plans shall be submitted for review. See B106-Cof O handout for submittal requirements. The plans will be reviewed by all applicable agencies. A Certificate of Occupancy will be issued after all inspections are approved by the various agencies such as Building, Fire Dept, and Zoning.

The review requirements of the planning division are inclusive of the zoning and use. Accessibility and path of travel are Building Division elements. Approval of the use and zoning does not necessarily grant an approval by the Building and Safety Division. For additional information and requirements, see the Obtaining Certificate of Occupancy handout # B106-C OF O and the back side of this form. Reviews, City Approvals and any outside agency approvals are required prior to permit issuance. An inspection will be performed for all C of O's.
